

Dame Alice Owens Network Event - 13th November 2017

Dame Alice Owen's School in Stevenage warmly welcomed members of HertsCam to the second Network Event of the 2017-18 school year. We were delighted to see colleagues from the TLDW and the MEd programmes. The inclusive nature of HertsCam was clearly represented in the wide range of school experience and settings from Early Years practitioners to those working at Post 16

The programme was accompanied by an exceptionally talented string quartet of DAO Sixth Former students who played a wonderful array of music. Our host Helen Wootton, Assistant Headteacher and MEd graduate, welcomed us all to the event. Headteacher and former TLDW participant Hannah Nemko provided a passionate opening address and Matt Pickering informed us about the success of his BYOD (bring your own device) project in the school.

There was a vibrant atmosphere during the Poster Gallery Walk session, with many high quality post-it note contributions; sharing, shaping and building knowledge.

The second session provided an insight into a range of development projects, provoking discussion and the sharing of ideas for colleagues leading the workshops. Project foci included; Developing strategies students to engage with debate and discussion, Tracking of G&T students, Promoting Citizenship across the curriculum, Developing independent learners, Helping student literacy, Empowering students to be responsible for their own learning space.

Light Bulb Moments from the Network Event

Great feedback on posters

Posters are for 'idea harvesting'

Swapped emails and great ideas

Project can have larger impact than just my school

Loved: That the balance of early years, primary and secondary was more even

Thank you to Helen Wootton for hosting, to Jasleen Dhillon for supporting the organisation of the event and to everyone who contributed through the wonderful posters and workshops. All feedback will be discussed at the next HertsCam Managing Group Meeting.
