

WHAT IS HERTSCAM MED IN LEADING TEACHING AND LEARNING (INTERNATIONAL)?

Blended learning

This transformational programme enables participants to identify their own priorities for change and to design and lead their own development project aimed at improving the quality of teaching and learning in their schools.

The programme is designed and taught by experienced teachers in partner organisations. The degree is awarded by our academic partner, a leading UK university.

The MEd is part of the HertsCam Network, dedicated to building professional knowledge through dissemination, critical discussion and collaboration. This has an international dimension through our collaborations with colleagues in many countries.

What's included?

Our part-time, two year course includes:

- face to face twilight sessions
- online international Network Events
- supervisions with a designated supervisor
- graduation ceremony at the end of the second year
- online whole cohort sessions

Who is the HertsCam MEd in Leading Teaching and Learning for?

Our MEd is for anyone working in the education sector with a passion to lead change, develop their practice and improve outcomes for the students they work with. You do not have to hold a formal position of leadership to participate. Previous students have included teachers, support staff and a children's centre manager. Applicants from all education sectors are welcome.

www.hertscam.org.uk

What happens in sessions?

- structured discussions
- tools and information to help you plan, initiate and lead change in your school
- opportunities to reflect on teaching and learning
- opportunities to exchange ideas, build knowledge and collaborate with others
- critical analysis of relevant literature
- guidance and support for assignment writing

What happens at network events?

- a highly valued opportunity to connect with fellow professionals
- sharing accounts of development work
- inter-school collaboration
- cross-phase collaboration
- building professional knowledge

Costs

£3,750 per annum

What our students say about our MEd

The Herts Cam MEd has been a fantastic learning experience, I have grown as a professional and found a network of colleagues and friends who support each other. The support and guidance from the tutors is outstanding and they have been excellent throughout the entire masters programme.

Studying on the MEd has helped me in many ways and I am able to communicate my ideas for change much more effectively now.

The peer networking and guided discussions on the programme added to a deeper understanding of both the theory and the practice of leadership and empowered me further to make effective decisions.

Why choose the HertsCam MEd in Leading Teaching and Learning (International)?

Our MEd is different

It gives you the opportunity to engage with academic literature to illuminate professional problems and carry out real-life, effective and impactful change for the students you work with. During the two year programme, you will analyse your institutional context, identify an area for development, learn about leadership and be supported to design and lead sustainable change in your setting. You will develop your practice, knowledge and understanding of leadership and make a difference for your students whilst doing so.

What people are saying about our MEd

"The MEd is "inspiring" and a programme that provides "authentic narratives that teach us so much about leadership that makes a difference in schools and for the candidates." **External Examiner, UH**

"HertsCam is a model for the future development of the teaching profession globally." **John Bangs, Senior Consultant to Education International and former Head of Education at the NUT**

Students have "more knowledge about school leadership, being able to develop others, having skills to plan whole school projects... Most projects support whole school development and the school improvement plan. They usually seek to have a direct impact on the quality and outcomes of students' learning." **EFFeCT project case study**

Our highly successful MEd programme is designed and taught by teachers who understand how the education system works. They understand how to support and guide you throughout your studies and will support you in carrying out your development project.

**Since 2015, 100% of our
students have successfully
passed our course and
graduated from it**
(figures based on
2015-2021 cohorts)

ABOUT HERTSCAM

The HertsCam Network is a charitable organisation with the core aim

to advance education for the public benefit through the provision of programmes for teachers to improve the quality of education in schools.

We believe that change led by teachers and other education professionals is fundamental to any sustainable improvements in school and school systems.

HertsCam has two programmes, the MEd in Leading Teaching and Learning and the certificate level Educator Led Development Programme.

We also have a strong publications record, enabling teachers to achieve a wide-ranging impact beyond their individual schools.

HertsCam has international links and a reputation for innovative practice that has been taken up by educators in many countries.

We currently support programmes in Kazakhstan, Egypt and Malaysia, working in partnership with lead organisations including NGOs, academics and school leaders to support hundreds of teachers and principals.
